To Do

To-Do acts as a task manager for boutique staff. It allows employees to create, assign, and monitor daily tasks related to customer service, production, or administrative work, improving operational efficiency.

The screenshot displays the 'To Do' section of the StyloSync application. On the left is a dark sidebar with a 'Boutique Support' header and a 'ROUTINE' section containing various navigation items. The main area features a filter bar with options for Date Type, From Date, To Date, Production, Item, Order No, and Production Status. Below the filters are several status buttons like 'Today Pending', 'All Pending', and 'Show All'. A grid of task buttons follows, each with a count, such as 'Ready for cutting', 'Lining taking', 'Cutting', 'Laid & B.Fin', 'Stitching', 'Hook & Perm', 'Ironing & Packing', 'Trial pending', 'Design handling', 'Bumkase Pending', 'Measurement Handling', 'Material Pending', 'Lining Pending', 'Net Pending', and 'Kumkase'. At the bottom is a table with columns for Date, Order #, Delivery Date, Production Operation, Item, Plan Started, and Plan Finished, containing three rows of task data.

Date	Order #	Delivery Date	Production Operation	Item	Plan Started	Plan Finished

Overall Follow-up

Overall Follow-up provides an overview of all customer follow-ups. It ensures that boutique staff can keep track of pending callbacks, order updates, and unresolved customer queries, leading to better communication and customer engagement.

The screenshot displays the 'Overall Follow-up' dashboard. On the left is a sidebar menu with options: Boutique Support, BOUTIQUE, Dashboard, Masters, Transaction, Order Entry, Delivery Invoice, Today Followup, To Do, Appointment Booking, My Appointments, Item Consumption, Overall Followup (highlighted), and Measurement And Design Pending. The main area has a search bar and a filter section. The filter section includes 'Filter For' (Delivery Date), 'From Date' (30-11-2024), 'To Date' (04-04-2025), 'Production' (Lining Island), 'Item' (Item), 'Order No' (Order No), and 'Production Status'. Below the filters is a table of follow-up items.

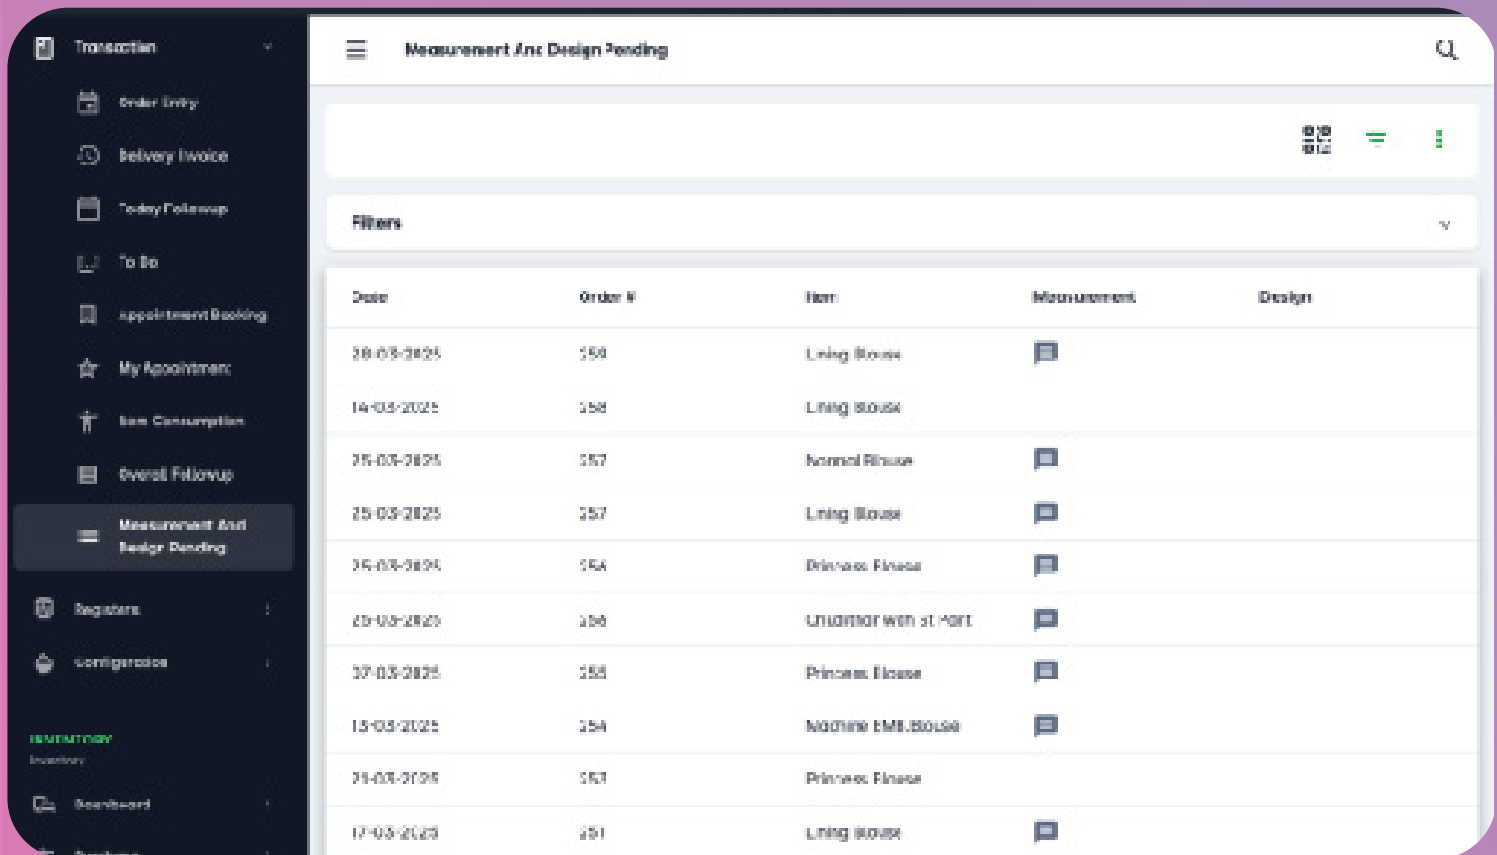

Item	Order No	Production Status
250	Delivery Date: 09-03-2025	Customer : Kani shankar
259	Delivery Date: 20-03-2025	Customer : Hemalatha sathya
234	Delivery Date: 16-04-2025	Customer : Hemalatha sathya
257	Delivery Date: 25-03-2025	Customer : Geeta satheshram
266	Delivery Date: 25-03-2025	Customer : Manohar satheshram
265	Delivery Date: 07-04-2025	Customer : Jayapriya M

Measurement and Design Pending

This module helps in tracking pending measurements and design approvals for customer orders. It ensures that all required inputs from customers are completed on time, preventing delays in production and improving order fulfillment efficiency.
